🎯 Professional Summary

Detail-oriented and ISTQB-certified Software QA Engineer with 5+ years of experience ensuring high-quality releases of web and mobile applications. Proven expertise in manual and automated testing, Agile methodologies, CI/CD pipelines, and test-driven development. Skilled in building scalable test frameworks and collaborating with cross-functional teams to identify and eliminate bugs early in the development cycle.

Experienced in banking systems, Temenos T24, and test automation using Katalon Studio.

💼 Professional Experience

Senior QA Engineer

TechNova Solutions | San Francisco, CA

Jan 2022 – Present

Led quality assurance for 10+ agile product releases, reducing production bugs by 40%.

Designed and maintained automated test scripts using Selenium (Java) and Pytest for a SaaS platform with 1M+ users.

Integrated automated tests into CI/CD pipelines using Jenkins and GitHub Actions, cutting regression test time by 50%.

Created detailed test plans, cases, and bug reports in JIRA, achieving a 98% bug reproduction rate.

Conducted cross-browser, accessibility, and mobile testing (iOS/Android).

Collaborated with financial institutions to ensure QA compliance with banking regulations and security standards.

Performed end-to-end testing on Temenos core banking modules including T24 upgrades and customizations.

Created and maintained automated test cases in Katalon Studio for regression and UAT testing in banking projects.

QA Engineer

BlueOrbit Technologies | Remote

Jul 2019 – Dec 2021

Developed and executed manual test cases for web and mobile applications, catching critical issues before production.

Implemented API testing using Postman and RestAssured, validating over 50 endpoints.

Collaborated closely with developers during sprint planning and retrospectives, ensuring early detection of issues.

Used TestRail for test case management and maintained traceability matrices for compliance.

QA Intern

DataVerse Labs | Los Angeles, CA

Jan 2018 – Jun 2019

Assisted in regression and smoke testing cycles for internal analytics tools.

Logged reproducible bugs in Bugzilla and helped reproduce and isolate defects.

Learned fundamentals of Agile, Scrum, and exploratory testing.

Technical Skills

Testing: Manual Testing, Automation Testing, Regression, Smoke, UAT, Performance, Cross-browser

Automation: Selenium WebDriver, TestNG, Pytest, JUnit, Postman, RestAssured, Cypress, Katalon Studio

Banking QA: Temenos T24, Core Banking Systems, Compliance Testing

Languages: Java, Python, JavaScript, SQL

Tools: JIRA, TestRail, Jenkins, Git, GitHub Actions, BrowserStack, Docker, Appium

Methodologies: Agile, Scrum, BDD, TDD, Shift Left Testing, CI/CD

Cloud & DevOps: AWS (basic), Docker, GitHub Actions, Jenkins

Certifications

ISTQB Certified Tester – Foundation Level (CTFL)

Certified Selenium Automation Engineer (Test Automation University)

AWS Cloud Practitioner (in progress)

Education

B.S. in Computer Science

University of California, Los Angeles (UCLA)

Graduated: 2018

Projects

Automated Testing Framework (GitHub)

Built a scalable, data-driven Selenium framework with page object model and reporting using ExtentReports.

API Testing Suite (Postman + Newman)

Created automated test suites for RESTful APIs, integrated with CI pipelines for nightly runs and Slack reporting.
